Kevin B. Cook, President
Michigan GREEN Board of Directors
7627 Park Place
Brighton, MI 48116

Dear President Cook:

Permit me to lend my support to your efforts to implement your renewable energy and energy efficiency education program in our nation's schools. One of the ways to help our schools reduce cost, save money and accomplish a positive public policy initiative is to assist schools with an energy saving program. They are willing participates but they lack the money to make the upfront investment and the expertise to evaluate the alternatives.

Using the local schools as a teaching lab and model to achieve success should prove very beneficial. Having students involved in a project they can have a direct involvement with is a great teaching tool that should translate into action and support for innovative ideas outside of the school building.

I wish you the best of success with your endeavor to implement and fund this program.

Sincerely,

Bart Stupak
MEMBER OF CONGRESS
