October 20, 2009

Cooler temperatures, gray skies and even the raindrops could not dampen the high spirits and enthusiasm of the 100 Lowell elementary students. The essays and drawings were wonderful. The smiling faces of students, school faculty, community members, and parents added to the wonder of the day.

We at Michigan GREEN would like to take this opportunity to thank you for your contribution to the Project EverGREEN Schools Tree Planting event at the Wittenbach Wege Argiscience Environmental Center. Through your participation, we were able to touch a child's life and make a lasting contribution to the future of our youth and our earth. The trees planted on October 9<sup>th</sup> will be a living testament to your commitment to improving our environment.

Currently, we are compiling the numerous photos and video clips of the tree planting to create a DVD with the story of Dell, Michigan GREEN and Lowell Schools. Once this project is complete, we will forward a copy to you.

Again, we thank you whether you donated to the day, planted trees, assisted with lunch or were a supportive parent, teacher, or community member. Michigan GREEN and Dell, Inc. will be planning for our next event in the Spring of 2010.

Appreciatively:

William Naubert  
President

Kevin Cook  
Chairman of the Board

Bryan Zaplitny  
Vice Chairman / CFO

Douglas Russell  
Executive Director
